

# Nature'sse

## FOREST

100% ESSENTIAL  
OIL BLEND

## The trees' breath gives us life

Nature'sse are 100% pure essential oil blends – limited editions created and formulated exclusively for ThermoStar. Backed by a total love of detail and over 40 years of experience in aromatherapy and the effects of essential oils on our body. Particular attention is paid to the delicate interaction between delivering an extraordinary fragrance experience and a holistic effect.

Inspired by the Japanese healing method of Shinrin Yoku (forest bathing), we developed our FOREST branded fragrance. Thanks to its main ingredients – spruce needles, frankincense, ravintsara and myrtle – FOREST has antibacterial and antiviral as well as disinfectant and anti-inflammatory effects. At the same time, these ingredients also contribute to improved concentration and help reduce stress. This oil mixture strengthens our inner balance and our immune system – exactly as described in the Japanese practice of forest bathing.

Nature'sse and the ThermoStar evaporator complete the circle of holistic, natural and sustainable hygiene. Aromatherapy meets the unparalleled air-purifying effect of ThermoStar's dry steam technology.

# HYGIENE FOR MIND AND SOUL

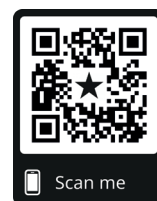

Thermostar provides simple, sustainable and chemical-free solutions for the home.

We bear the responsibility to conserve nature and reduce waste to save planet Earth as this is our legacy to our children.

Buy Thermostar products once, and they will serve you for a lifetime.

Our products are developed and made to allow for replacement of individual components whenever needed. This saves money and preserves the environment.

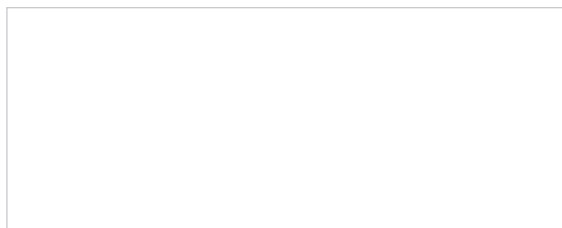

## Your saving, your benefit

Gain twofold! You can save power, effort and time when cleaning your home. We deliver a professional cleaning system that will help you achieve a nontoxic and healthy living place – because your health and your life are priceless.

## A worldwide distribution network

Quality always prevails. Thermostar, established in 2008 with its headquarters in Austria, has built up a worldwide distribution network that is continuously growing. We have years of expertise and experience to understand and provide excellent cleaning solutions for every home.

If you have any questions, please contact one of our authorised distributors.
